SUN, RAIN AND WIND
UNDER CONTROL

INNOVATION • DESIGN & TECHNOLOGY

MODERN DESIGN AND FUNCTIONALITY

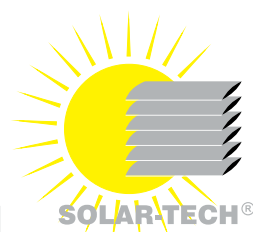

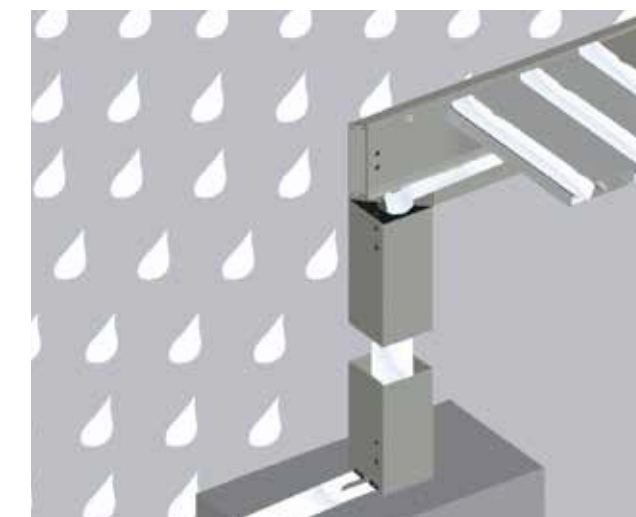

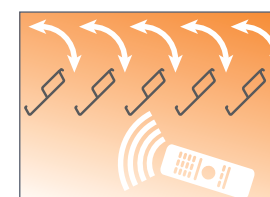

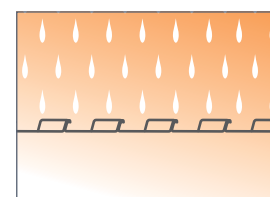

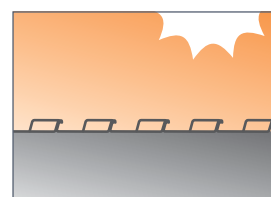

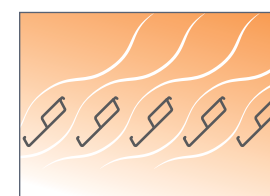

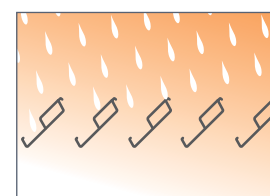

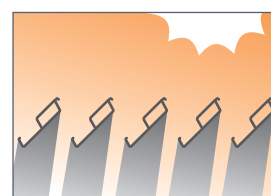

Pergola PRIMAVERA is a high-tech solution for covering terrace and creating a new outdoor space. Multifunctional adjusted roof is an ideal sun shading which offers additional protection against rain and wind.

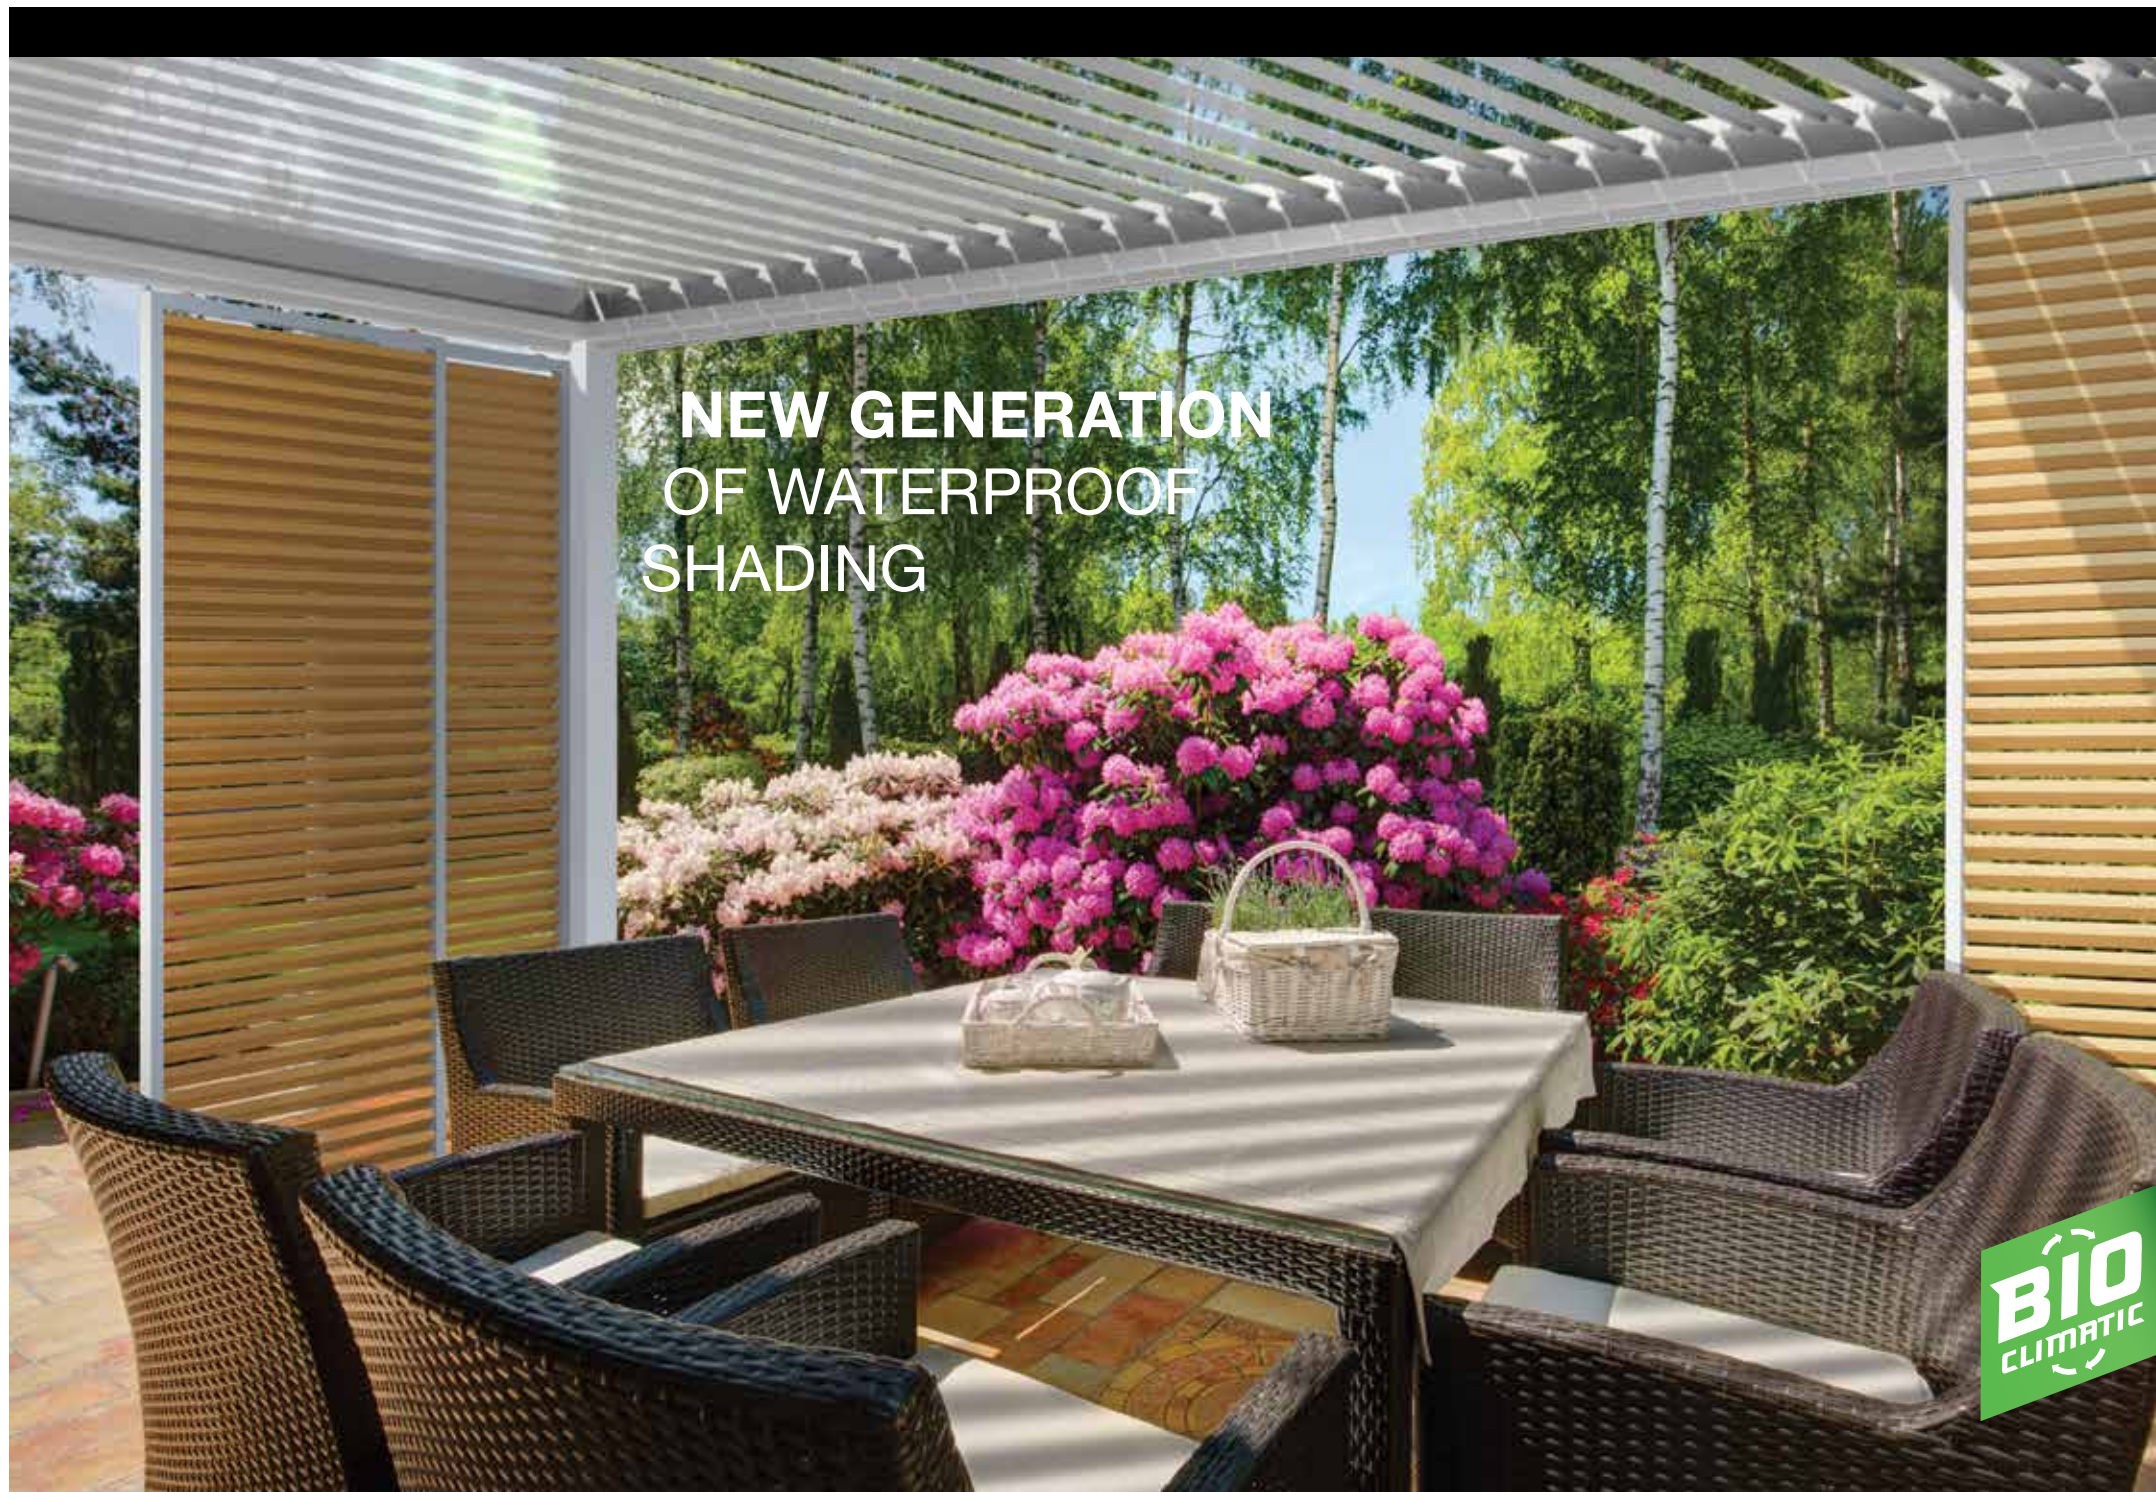

The rotating louvres operated with remote control ensure high degree of visual comfort and provide natural ventilation.

When closed waterproof louvres in a combination with a water drainage system built in the construction allow to enjoy your garden and terrace whatever the weather.

Let's play with the sun!

The comfortable temperature can be arranged with side roller blinds, shutters or glass panels. The application of heaters or cooling systems gives you full control of your environmental.

NEW GENERATION OF WATERPROOF SHADING

INNOVATIVE SHADING

- WITHOUT
LIMITATIONS

Pergola PRIMAVERA is dedicated for residential use as well for commercial application. It can be adapted to each patio, terrace, garden, balcony, restaurant or hotel.

It creates unique atmosphere and ensures comfort for your family or quests.

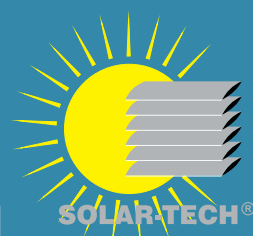

INNOVATION • DESIGN & TECHNOLOGY
